# 2024 Recount and Audit Certification Report

If a race is eligible for a recount ([20A-4-401\(3a\)](#)) and is timely requested by the losing candidate, the recount shall be conducted within 7 days of the recount request ([20A-4-401\(5\)\(a\)\(iii\)](#)).

If you have any questions or encounter any problems, notify your liaison in the Lt. Governor's Office immediately.

## Pre-Recount

- Post notices of ballot processing, which will include an audit at the conclusion ([20A-3a-807](#) and [52-4-202](#)).
- Create a backup election titled "Recount."
- Reset the results to zero before beginning the logic and accuracy test.
- Print and sign and date zeros reports from the results database and from each piece of counting equipment. These reports should only list the CD2 race and results.
- Conduct a Logic and Accuracy test ([20A-4-104](#)), and ensure that only the CD2 race is being reported.
- Create a new back up election.
- Reset the results to zero before beginning the recount.
- Print and sign and date zeros reports from the results database and from each piece of counting equipment.
- Prepare Forms for Board of Canvass:
  - Signed canvass report
  - Summary results
  - Precinct results

## Recount [20A-4-401](#)

- Review postmarks on all "too late ballots." Ballots that count must have a valid postmark (June 24 or earlier AND have been received before noon on the date of your county canvass) ([20A-3a-204\(2\)](#)). These ballots remain unopened during the review.
- Review uncounted ballot envelopes under [20A 3a part 4](#). These ballots remain unopened during the review:
  - Review all uncounted mail ballots that were challenged ([20A-3a-401\(3\)](#)).
  - Review all cured affidavits to ensure each corresponding ballot has been counted ([20A-3a-401\(5\)](#)).
  - Ballots that were not cured before 5:00 pm three days before the original canvass began cannot be counted ([20A-3a-401\(5\)](#)).
  - Review all uncounted provisional ballots ([20A-3a-402\(1\)](#)).

- Make detailed notes on any additional ballots that are being included in the recount that were not in the original count.
- Rescan all ballots ([20A-4-401\(b\)\(ii\)](#)) (For Salt Lake, this will include uploading all DRE ballots).
  - Verify and reconcile that all ballots have been counted, including UOCAVA and remakes.
- Perform adjudication.
  - Commit results.
- Submit batch numbers to the Lt. Governor and conduct a 3% post-recount audit (State of Utah Election Audit Policy - Recount Audits). The audit will only be conducted on the CD2 race. The 3% will be of all ballots scanned in the recount. In some jurisdictions, the batches may contain ballots outside of the CD2 race. Those ballots can be skipped for this audit. Communicate with the Lt. Governor's Office as you progress through your count so we can be ready to turn the numbers around quickly.

Salt Lake will also need to audit 3% of DRE ballots cast and at least 1 machine per polling place.

## Post-Recount

- Complete final "OFFICIAL RESULTS" for the RECOUNT that only contains results for CD2
- Reconvene the Board of Canvassers immediately ([20A-4-401\(11\)](#)). Check with your commission/council and attorney on the noticing requirements ([52-4-202](#)).
- Boards of Canvassers shall canvass the CD2 results and transmit a report to the Lt. Governor that details the number of votes for each candidate ([20A-4-401\(11\)](#)).
- Sign a new audit summary report and send it and the signed canvass report to the Lt. Governor.
- Upload recount results for the CD2 race to the state election results website. This will be the recount website, not the June 25 Primary website. Only post results after your canvass is complete.
  - Verify that the state results site matches the official county results.
- Publish the certified report of the board of canvassers as a Class A notice ([20A-4-304\(6\)](#)).

## Paper Ballot Audit Summary

1. Number of paper ballots processed: **77,498 total / 17,416 CD2**
2. Number of ballots audited: **2122 Total / 436 CD2**
3. Were there any differences between the tabulation software and the votes marked on the paper

ballots?

Yes  No (\*If YES, please attach an explanation of any inconsistencies)

---

**DRE Machine Audit Summary (Salt Lake County Only)**

1. Number of voting machines used in the election: **226 Total / 106 with CD2 ballots**
  2. Number of polling places used for the election: **19 total / 18 with CD2 ballots**
  3. Number of voting machines audited: **18**
  4. Were tamper-evident seals affixed to all journal tape canisters?  Yes  No  
*(Seals were removed prior to the audit for the primary election; they were intact at the time of removal. Canisters have been stored in a secure location and untouched since the earlier audit)*
  5. Did all machine serial numbers match when the canisters were installed and removed?  Yes  
 No  
*(See note for item 4)*
  6. Did any tape seals on the journal tape canisters show evidence of tampering?  Yes  No  
*(See note for item 4)*
  7. Were there any differences between the machine results and hand-counted results for any audited machine?  Yes  No
- 

**Clerk Certification – to be completed at the end of the recount**

Number of ballots counted in the recount: **82,841 total / 18,604 CD2 ballots**

Number of ballots counted in the original official results: **146,888 total / 18,059 CD2 ballots**

Difference: **5 ballots**

Explain any differences: **One Too Late ballot was discovered to have a valid postmark on the reverse side of the ballot envelope and was counted. Four ballots that had been previously challenged were determined to have signatures that matched those in the voter record, and were counted.**

Yes  No I have verified that each step listed in this document has been completed
