

The background of the slide is a photograph of the Salt Lake City skyline. In the foreground, there are several modern high-rise buildings with glass facades. In the background, a range of mountains with patches of snow is visible under a clear blue sky. The overall scene is bright and clear, suggesting a sunny day.

What is an Inversion?

What is Summer Ozone?

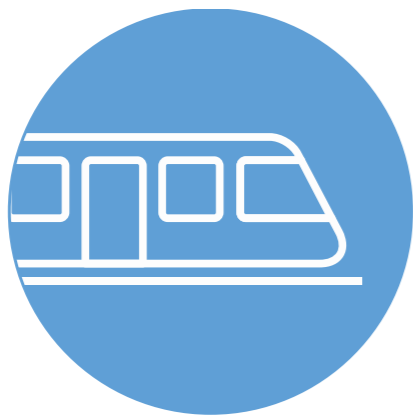

What can we do?

*There are no perfect answers,
but there are practical solutions*

Small Behavior Changes

TravelWise:

transit

carpool

trip chain

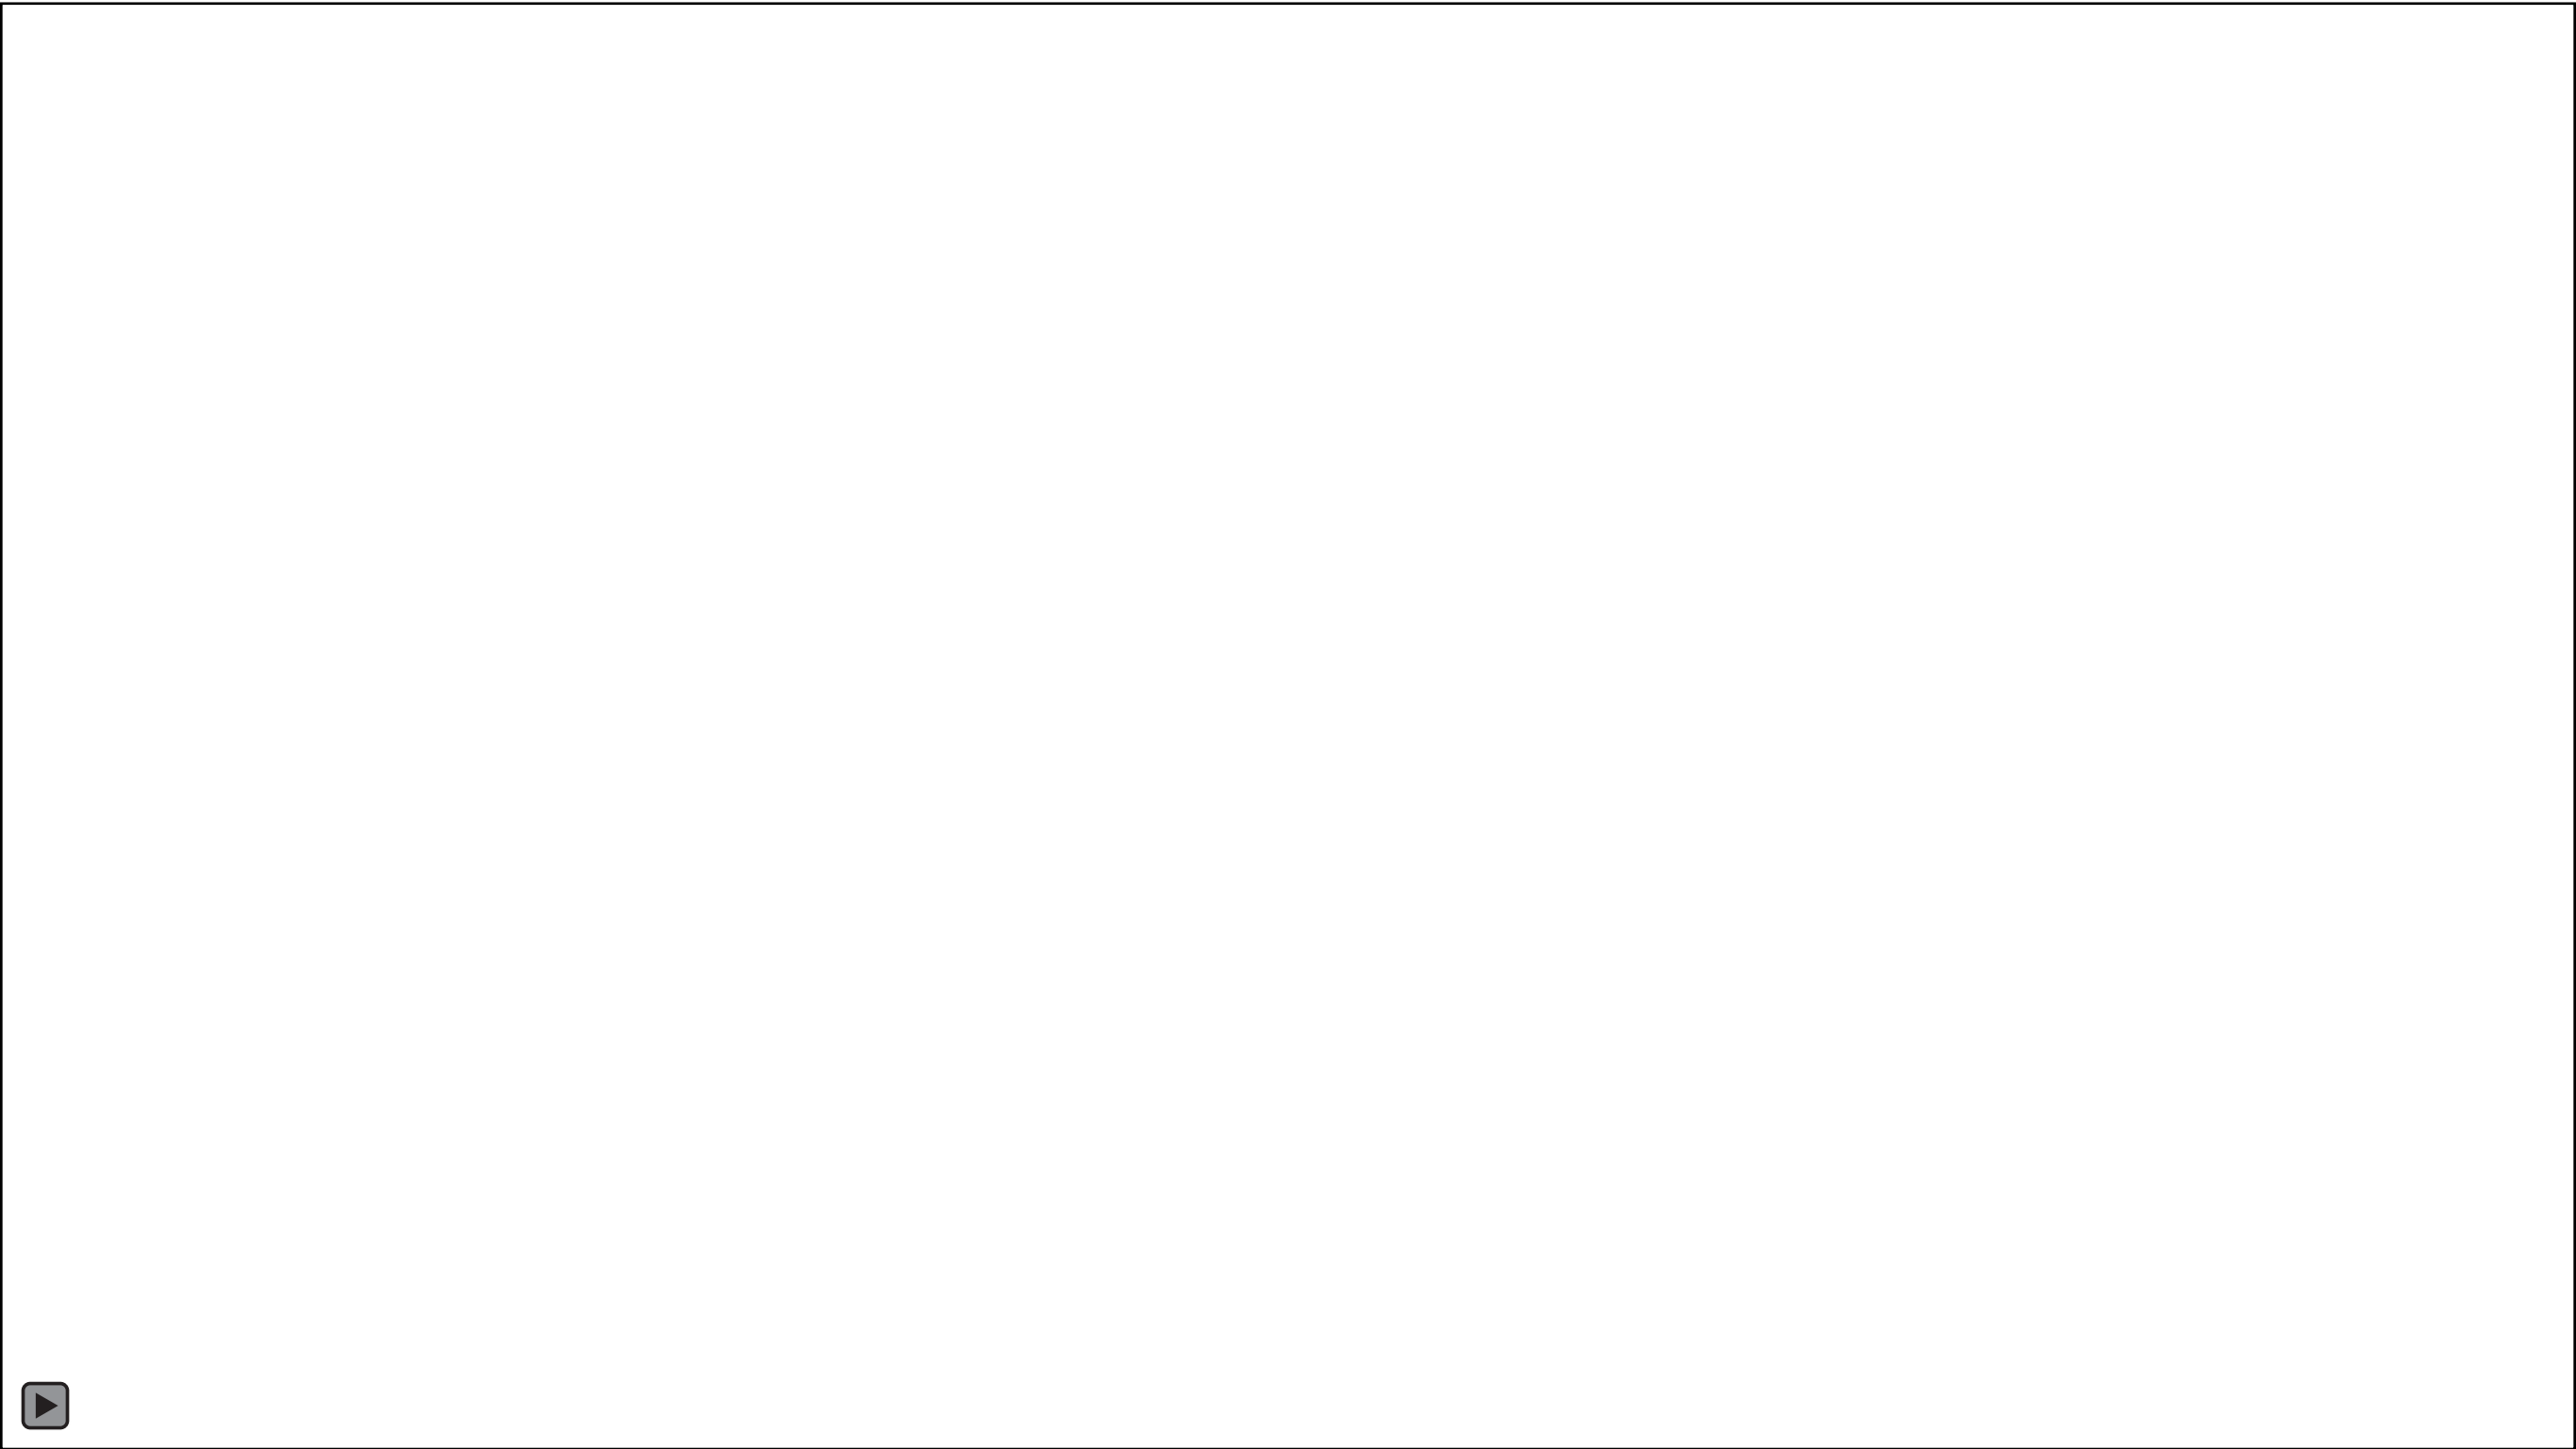

walk/bike

Reduce cold starts

Education

Small Behavior Changes

TravelWise:

transit

carpool

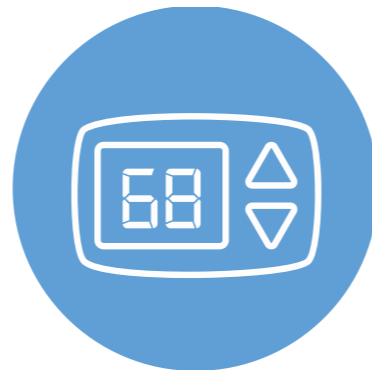

trip chain

walk/bike

Reduce cold starts

Raise thermostat in the summer, lower in the winter

Funding Programs

Partner and support other organizations with similar aims

GRANTS & PROGRAMS : Idle Free Heat | Green Bikes | Clear the Air Challenge | Lawn mower exchange | Smoking Vehicle Hotline

Gas Can Exchange | Woodstove exchange | Targeted Airshed Grant

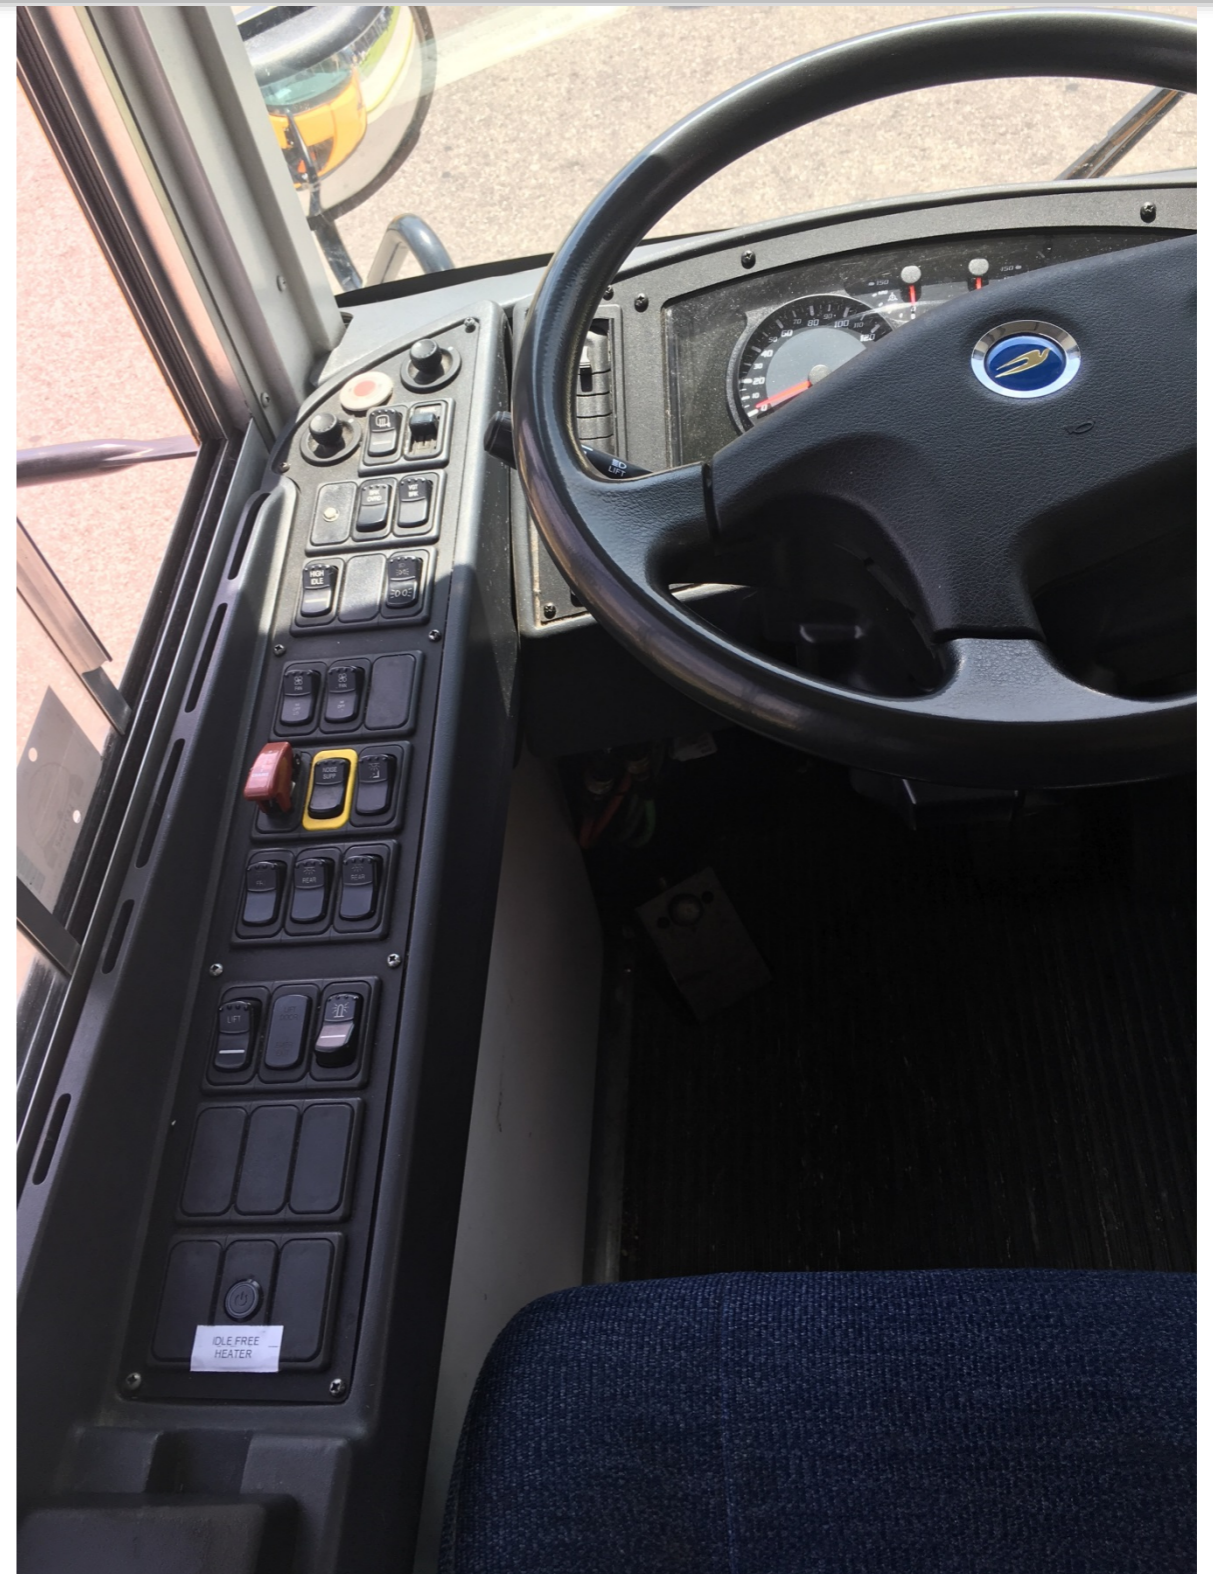

Policy

More people = More emissions

Practical Solutions

Which future will we choose?

The background of the slide is a photograph of the Salt Lake City skyline. In the foreground, there are several modern high-rise buildings with glass facades. In the background, a range of rugged mountains with patches of snow is visible under a clear blue sky. The overall scene is bright and clear, suggesting a sunny day.
