Salt Lake City, UT — The Salt Lake County District Attorney's Office Friday filed motions to dismiss 26 cases related to the West Valley Police Department's Neighborhood Narcotics Unit. As before, the Office sought to dismiss these cases in the interests of justice because the Office believed these cases no longer had a reasonable likelihood of success at trial. The cases sought to be dismissed on May 3 were mostly older cases on bench warrant; some time was needed to obtain and review the older case files to determine which cases should be dismissed.

Also Friday, the District Attorney's Office filed Notices of Possible Impeachment Evidence in 48 other cases related to the Neighborhood Narcotics Unit. We anticipate another approximately 25 cases will have similar notices filed in the coming days. The Office believes these cases can still be prosecuted and consistent with the law, the Office intends to vigorously prosecute where appropriate. The notices advise the court and defense attorneys that there may be impeachment evidence pertaining to a witness or witnesses in the case.

Pursuant to the principles espoused in the United States Supreme Court cases of *Brady v. Maryland* and *Giglio v. United States*, the Constitution imposes on prosecutors an affirmative obligation to make such disclosures necessary to ensure a fair and just process to all individuals in our criminal justice system.

Because the potential impeachment evidence is contained within protected records, the evidence cannot be disseminated without a court order. We believe these notices comply with the relevant law and fulfill our initial disclosure obligations; the Office will continue to fulfill the ethical standards required of prosecutors as the Office participates in any litigation that follows from these notices. All persons accused of a crime are presumed innocent unless and until proven guilty in a court of law.
