Keeping Us Connected

Weekly Message

Juneteenth, a day that holds great significance for our community, and the nation as a whole, is **next Monday!** Also known as Freedom Day or Emancipation Day, Juneteenth commemorates the emancipation of enslaved African Americans in the United States. It marks the day when news of the Emancipation Proclamation finally reached the last enslaved individuals in Galveston, Texas, on June 19, 1865.

Salt Lake County stands united in honoring this historic milestone and recognizing the importance of Juneteenth. The Mayor's Office invites all employees to take part in this week's Juneteenth celebration, which will be hosted in partnership with the Office of Diversity and Inclusion, on **June 16 at 12 p.m.** in the Council Chambers of the Government Center.

This state and nationally recognized holiday is a time for reflection, celebration, and furthering our commitment to racial justice and equality. In alignment with our dedication to fostering a diverse and inclusive environment, Salt Lake County provides "[What's the Big I.D.E.A?](#)" trainings—quick grab-and-go courses available for any leader or employee to instantly deliver to a group or team, or to even learn about on their own—which feature important cultural topics and courses to encourage inclusivity, diversity, equity, and access. If you would like to increase your cultural awareness, this month's featured course on Juneteenth is a great place to start!

As a community, we must continue to strive for inclusivity and equity in both policies and actions to ensure that the principles of freedom and justice extend to every individual, regardless of their background or heritage. Thank you for your continued support in cultivating an inclusive and equitable community in Salt Lake County. Let us embrace this opportunity to learn, grow, and celebrate this important piece of our nation's history.

Planned Power Outage

There will be a planned power outage at the Government Center next Monday, **June 19, at 8 a.m.** to test and perform maintenance on the generators. Anything not connected to emergency power will be without out power during the test. We anticipate the power outage will be complete within two hours.

For any questions or concerns, please email [Dave Rohbock](#), or call at either x80349, or 801-598-0234.
