

Plan Review Checklist

Food Protection Bureau, Environmental Health Division 788 East Woodoak Lane; Murray, UT 84107 385-468-3845; HealthFood@slco.org

יווו ג	ust submit the following ite	ems before the depart	ment will complete yo	ur plan review:	
	Site Plan: Show the outside areas that immediately surround the building in which you're conducting food service. The site plan should show the dumpster area and indicate finish surfaces such as concrete, asphalt, etc.				
	Dimensional Floor Plan: Show all areas of a food service facility including dining/customer areas, food service, food prep, food storage, warewashing, server areas, mop/janitorial area, and restrooms. The floor plan must be drawn to scale so we can determine distances. You must show distances or provide a scale (1/4 inch = 1 foot).				
	Equipment Layout and Schedules: Show the layout and location of all equipment. This is typically done jointly with the Dimensional Floor Plan. You must clearly label each piece of equipment shown on the layout, or provide a numbering system to clearly identify all equipment. The manufacturer and model number of all food equipment must also be listed to verify compliance with requirements for ANSI/NSF commercial equipment.

Mechanical Schedule: Mechanical schedule for the purposes of the health department should include specifications for exhaust hoods (if any) in the kitchen and exhaust fans for restrooms.
Plumbing Schedule: The plumbing schedule must include locations of all plumbing fixtures including floor sinks and drains, and must indicate how all equipment is to be drained. Plans should include drainage of all sinks, ice machines or bins, refrigerator or walk-in cooler condensers, soda pop dispensers, steam tables, salad bars or any other equipment that generates liquid waste.
